

**ARIZONA DRINKING WATER SYSTEM
NEW SOURCE GLYPHOSATE MONITORING WAIVER**

Name of Public Water Supply System:_____

PWS Identification Number:_____

Contact Person:_____ **Telephone:**_____

Step 1. Identify all water supply source(s) by name, legal location, Department of Water Resources (DWR) number and place a Yes or No identifying those sources which are continuously chlorinated. Continuous chlorination is defined as a chlorinator that is permanently installed and operated continuously at each source or point of entry.

Source name	Cadastral Location	DWR Number	Continuous chlorination
EXAMPLE: Well #1	D 6-4 28 dac	55-123456	yes

Step 2. CERTIFICATION

I hereby certify that the above information, to the best of my knowledge, is complete and correct, and that such information has been verified in the field, to the fullest extent possible.

Name of System Owner Signature Date

Title

Name of Certified Operator Signature Date

Title

(over)

Step 3. Submit this application along with the new source approval water chemistry results to ADEQ at the address below. ADEQ will the grant or deny the New Source Waiver for GLYPHOSATE . You will need to reapply for a Use Waiver at the end of this time period in order to have it renewed. If the waiver is denied, ADEQ will inform you of the reason (s) for this decision. The New Source plans and specifications must include continuous chlorination to obtain a New Source Waiver without submitting Glyphosate and analytical results.
